PROXOCORIS INTERNATIONAL COMPETITION 2026
WEB DEVELOPMENT CATEGORY — OFFICIAL GUIDELINE

Theme:
"Bridging Gaps: Code for Earth, Intelligence for Justice, and Sustainability for Shaping Tomorrow"

1. Introduction

Web Development category of the PROXOCORIS International Competition 2026 invites global participants to develop innovative web applications addressing sustainability, justice, and digital empowerment.
This category focuses on solutions that contribute to:

- Web solutions for environmental monitoring.
- Systems that improve access to services.
- Platforms that strengthen digital inclusion.
- Tools that support community learning.
- Ethical use of AI in web features.

Projects must show **innovation, technical depth, and real world impact.**

2. Main Theme 2026

"Bridging Gaps: Code for Earth, Intelligence for Justice, and Sustainability for Shaping Tomorrow"

Subthemes (Choose One)

1. AI for Climate Justice and Social Resilience
2. Smart, Inclusive, and Sustainable Cities
3. Green Technology for All
4. Digital Equality and Environmental Preservation
5. Community Empowerment and Climate Education
6. AI for Governance, Transparency, and Sustainable Justic

3. Eligibility

Open to national and international participants, including:

- High school students
- University students
- Professionals
- Independent developers
- Startup teams
- General public

Team Requirements

- Teams of **1 to 3 members**
- A participant may join **only one team per category**
- One project submission per team

4. General Rules

1. **All submissions must be original** and must not violate copyright, licensing, or intellectual property rights.
2. **Websites must not contain harmful or inappropriate content**, including elements of violence, pornography, SARA, or content that violates ethics.
3. **Any web technology or framework may be used**, as long as it supports the functionality and objectives of the project.
4. **Open-source tools and libraries may be used** with proper attribution and compliance with their respective licenses.
5. The submitted website must function properly and be safe to access, including malware-free files, secure links, and stable hosting.
6. **All decisions from the judging panel are final and cannot be contested**, and the committee may use submitted materials for documentation or promotional purposes.

5. Official Timeline

Registration

- First Wave: 22–28 January
- Second Wave: 29 January – 4 February
- Third Wave: 5–11 February

Submission & Evaluation

- Full Submission Period: 10–14 March
- Judging Period: 15–19 March
- Finalist Announcement: 20 March

Pitching Preparation

- Technical Meeting: 22 March

Pitching Sessions

- Business Plan & Business Case: 29 March
- Mobile App Pitching: 3 April
- Web Development & UI/UX Pitching: 5 April

Final Event

- Winner Announcement: 16 April

6. Submission Requirements (Single-Stage Submission)

All deliverables must be submitted at once during the official submission period **(10–14 March 2026)**.
Late or incomplete submissions will not be evaluated.

7. Guide To Proposal Writing

A. Title Page

The title page must include:

- Website title
- Team name
- Team member names
- Institution/Organization
- Competition category

B. Background

Write a brief and structured background:

- **Main Problem**
  Explain the specific problems you want to solve.
- **Urgency of the Solution**
  Why is this website important? Explain its value and relevance.
- **Comparison with Similar Websites**
  Provide examples of the strengths, weaknesses, and opportunities for improvement of other similar solutions.
- **Impact of the Website**
  Describe the positive impact or expected changes for users or the community.

C. Objectives, benefits, and solutions

- **Objectives**
  Explain the main goals to be achieved through website development.
- **Benefits**
  Describe the benefits for users, institutions, the community, or other relevant parties.
- **Solutions**
  Explain how the website can address issues and the core features that support it.

D. Website Boundaries

Explain the scope and limitations of the website:

- **Primary Users:** Who are the primary target users? (e.g., students, workers, MSMEs, communities, etc.)
- **Core Website Functions:** What are the main functions that users can perform through the website?
- **Website Limitations:** What capabilities or features are not yet available or are not included in the project scope?
- **Supported Platforms:** Is the website optimized for Desktop, Mobile, and/or Tablet?

E. Website features & uniqueness

- **Key Features:**
  Examples: dashboard, login, notifications, catalog, reports, forums, etc.
- Website Uniqueness
  What makes your website different from similar solutions?
- **Innovation**
  Innovative value or new approaches offered.

F. Technology

List the technologies used in the development process:

- **Frontend**
  Display and interaction technologies (e.g., HTML, CSS, JS, React, Tailwind).
- **Backend**
  Server logic and data systems (e.g., Node.js, Laravel, Django).
- **Database**
  Data storage systems (e.g., MySQL, PostgreSQL, MongoDB, Firebase).
- **API / Additional Integrations**
  If using third-party services, list the API name, functions, and data used.

G. Implementation & Testing

- **Website testing process**
  Describe testing methods to ensure functions run properly and are error-free.
- **Feedback collection methods**
  Examples: questionnaires, user testing, internal evaluation, bug reporting.

H. Mockup Website

Attach design elements such as:

- Wireframe
- Mockup UI/UX
- User Flow

I. Attachment

Add supporting documents:

- Research results
- Survey data
- References

Format requirements:

- PDF
- **No maximum page limit**
- Filename: **TeamName_WebDevelompent_Proposal_2026.pdf**

J. Github Repository

Must include:

- Complete source code
- Organized folder structure
- Documented commit history
- README file

K. Demo video

Must Contain:

- Team Introduction
- Problem overview
- Website features
- System demonstration
- Technical explanation
- Expected impact
- Future development roadmap

Format: MP4

Filename: TeamName_WebDev_Demo_2026.mp4

8. Assessment Criteria

Submission and pitching are judged independently, each with 100% total score

A. Stage 1 - Submission Judging(100%)

ASSESSMENT ASPECTS	DESCRIPTION	WEIGHT
Theme Suitability & Problem Identification	The relevance of the idea to the competition theme and the clarity of the problem to be solved.	**25%**
Clarity of purpose, solutions, benefits	The development objectives are clear, the solutions are realistic, and the benefits provided are well explained.	**25%**
Innovation & Creativity	The level of novelty of ideas, creativity of approach, and distinguishing value from similar websites.	**20%**
Website Features	The completeness of the proposed features and the suitability of the technology to be used.	**20%**
Structure, neatness, and completeness of the proposal	Neat document preparation, format in accordance with regulations, and all elements of the proposal complete.	**10%**

B. Stage 2 – Pitching Judging(100%)

Pitching Format

- 10 minutes presentation
- 10 minutes Q&A
- English is the recommended language

Assessment Aspects	DESCRIPTION	WEIGHT
Presentation & Communication	How participants explain their projects, clarity of presentation, flow of delivery, and ability to answer judges' questions	**25%**
Website Demonstration (Live Demo)	The smooth running of the demo, the functions worked well, the display was as promised, and the participants' readiness demonstrated the main features.	**30%**
UI/UX Design	Design quality, neat appearance, ease of navigation, visual consistency, and user comfort	**20%**
Relevance of Solutions and Impact	How effectively the website addresses problems, the benefits it offers, and its long-term sustainability/desirability.	**25%**

Awards

Main Awards

- **1st Place**
- **2nd Place**
- **3rd Place**

Special Awards

- **Best Design Solution (Best 1)**
- **Best User Experience Innovation (Best 2)**

Disqualification Conditions

Teams may be disqualified for:

- Copying code or designs without permission.
- Submitting non original work.
- Using licensed assets without proper rights.
- Including harmful scripts or prohibited content.
- Modifying the work after the deadline.
- Manipulating the evaluation process.
